# BRIEF

At The Tarzan Way,

*"We believe that travel is not just about a vacation, but is an art of experiencing different realities."*

With 29 states, 7 union territories, 497 cities, 7935 towns, 600,000+ villages, thousands of ethnicities and dialects, and millions of people, India is a land full of diversity and colors.

One visit is definitely not enough to cover the entire country.

But after extensive research all over India, we have carefully crafted various travel programs across India to provide an immersive & cultural feel of the diverse nation.

## SOCIAL TRAVEL: NORTH INDIA

India is divided into six major regions, i.e. North, North-East, South, West, East & Central.

When we talk about North India, we speak of a land pulsating with diversity, of varied cultures and traditions, of beautiful quaint hill stations and holy religious towns. Guess what? It's exactly that! The region boasts of some of the largest glaciers, world class heritage monuments, vast sub-tropical forests, amazing archaeological exploits, bunch of adventurous locations and rich wildlife reserves.

Social Travel is a 6+ weeks experiential travel program in which the participants explore 16+ locations across North India while participating in meaningful volunteer work for a cause they care about.

Through this travel experience, we aim to provide a *taste of the Indian culture, an insight to the local traditions and lots of adventure while adding value to the society.*
